DOCKET FILE COPY ORIGINAL

Dear Sir:

This letter is in regard to RM-8626.

The Buena Park Amateur Radio Club is apposed to this petition that will eliminate all one-way transmissions below 30 MHz. Amateur Radio Operators have benefited from the code practice and information bulletins on amateur bands below 30MHz, including those from W1AW, for many years, and the elimination of this service will constitute a disservice to the American Public, and Amateur Radio Operators.

Sincerely,

Francis C. Tanner, WA6SHF
President
